# CLIENT WORKSHEET

|  | Example 1 | Example 2 |
|---|---|---|
| **Topic / Theme** | Portfolio | ISS Information Website |
| **Audience**<br>Who will use the website? | Future Employers | Space Enthusiasts |
| **Description**<br>What will the website be about? | A portfolio page with my name and a showcase of the projects I have done! | A website where people can learn about the ISS and they can put their location and see when the ISS will pass over! |
| **Accessibility**<br>How should users with special needs use your site? | All images should have alt text so they can be read by a screen reader. | Allow users to increase the text size. |
| **MVP Requirements**<br>What must the product do? | There should be a display / gallery with multiple projects on the same page.<br><br>Each project should have an image, title, and description. | Users should be able to input their location and know when the ISS will pass over them.<br><br>There should be a blog about the ISS.<br><br>Use ISS API. |
| **Extensions**<br>What extra features would enhance the page? | I want the use to be able to hide and show longer descriptions of my projects. | Users should also be able to click to update and see the current location of the ISS. Draw a map showing its location. |
